ULYSSES KYLE R. PUZON

WEB DEVELOPER

Davao City, Philippines | gonetconnect@gmail.com | www.gocheapwebsite.com

Full-stack web developer and system integrator with a strong foundation in networking, automation, and cloud-based web systems. I specialize in developing scalable voucher systems, router-integrated network backends, and dynamic web applications. Combining technical precision with creative problem-solving, I aim to deliver optimized solutions that balance performance, security, and user experience.

AREA OF EXPERTISE

Full-Stack Web Development WordPress & Elementor n8n AI Automation	Cloud & Network Integration (MikroTik, Omada, Hostinger) API Integration	Backend Optimization & Database Management Web Security

KEY ACHIEVEMENTS

- **Founder of GoCheapWebsite.com** – Established a recognized digital solutions brand specializing in scalable websites and business automation systems.
- **System Integration Milestone** – Developed one of the first unified roaming Wi-Fi voucher system in North Cotabato Region under GMX IT SOLUTION, integrating 1000+ routers with real-time API payment processing.
